

To: Whom it may concern

Md Auntor Shak from Bangladesh has been a student of our Spring 2022 Class on “Innovation & Entrepreneurship for Digital Economy” at Tsinghua University, Beijing, China.

During this program he participated in the research of ‘Tokenized Farmland for Carbon Offset project’ based on Block Chain concept. He performed very well, had a good spirit of innovation and exploration, and also worked well with the team members on the group project.

I highly recommend him, and I am confident he will be a great addition to your organization.

Regards,

Kris Singh
